Stairwell

Our service

Consulting, lighting solution,
coordinating the lighting upgrade

Products

RS PRO Connect R20 (16 Watt)

R-series emergency lighting

Saving energy isn't the question – it's the answer.

Why should lights be on when nobody needs them? The operator and residents of the ASIG buildings in Steinacker, Witikon, asked themselves the same question. The 24/7 stairwell lighting dating from 2005 produced temperatures of up to 30 degrees. In summer. In winter. Always. Even more unpleasant than the heat were the electricity bills. So the cooperative looked for an environmentally friendly, energy-saving and sustainable lighting solution – and found it at nevalux AG. Since the lighting renovation with modern, intelligent and elegant luminaires, electricity costs have fallen by 90%. Everyone's mood, on the other hand, has risen – and the environment is happy too.

Energy efficiency? Not a buzzword for us, but a matter close to our hearts.

Energy savings of up to 90% speak for themselves. As does the consistently positive feedback from residents on their new stairwell lighting. And not only in Steinacker: working with nevalux means always asking for the best energy solution. We provide the answer and implement it rigorously with the building owner, planners and installers – for the benefit of people and the environment.

“nevalux implemented the ASIG requirements perfectly in a lighting solution thought through down to the last detail. The energy cost savings are impressive.”

Eduardo Silva, Head of Property Management, ASIG Cooperative, Zurich

Must-have for stairwells – the RS PRO Connect R series by STEINEL

- Extremely energy-efficient
- Complete flexibility in grouping
- Very easy installation
- Invisible HF motion detector
- Adjustable range
- Configuration and networking via Bluetooth
- Adjustable brightness for main and base light

- Optional emergency lighting module

Steinel RS PRO R20

Light is our passion, forward-looking lighting solutions our mission.

Intelligent lighting solutions that inspire people, and solutions that combine energy efficiency, safety and comfort: that is our task. To make the world a little brighter.

LIGHTING CONCEPTS

As solution designers, we support you personally and assess the situation on site. The best basis for a perfect lighting solution.

PROJECT MANAGEMENT

It all starts with analysis. After solution-specific planning, we manage the implementation of the entire project and coordinate the trades involved.

INNOVATION

As pioneers and lateral thinkers, we keep developing our products and processes and get the most out of existing technology.
