nevalux.swiss

Client

Municipality of Volketswil

Location

Parkhotel Wallberg, Volketswil

Application

Pathway and car park lighting

Our service

Consulting, adjustment and configuration of the new lighting, managing interfaces with other trades, responsibility for project implementation

Products

iFux City Park Pole Connect 53W 3K

Light that is always one step ahead!

The pathway lighting at Parkhotel Wallberg was no doubt stylish in the 1970s. Today, 1970s luminaires with sodium vapour lamps meet neither ecological nor economic standards. When an electrical installation inspection uncovered insulation faults, it was clear: the luminaires – and the controls – urgently needed replacing. Today, intelligent luminaires light guests' way home. As soon as someone leaves the hotel, the swarm-controlled luminaire switches on and the neighbouring light groups light up in a preset dimmed mode. Thanks to this neighbour function, the light runs ahead of guests, making it easier to find their way to the car park and bus stop, and giving them a sense of security.

We get luminaires talking to each other. But first, we talk to you.

Talking with you matters to us: we want to get to know you and understand the project and its requirements. Our lighting solutions aren't kept in a drawer like paper clips. They are individually planned and tailored entirely to your needs. As at Parkhotel Wallberg, where the swarm function switches on light exactly where it is needed. This provides safety, saves energy and helps avoid unnecessary light pollution.

"With the nevalux lighting solution, we got the very best – technically, ecologically and visually. Thanks to flexible control of the luminaires, we can meet every requirement."

Client representative and Head of Technical Facilities, Municipality of Volketswil

Beautiful and smart: the iFux 53W 3K City Park Pole Connect

- Timeless LED luminaire
- Integrated radio comms for intelligent networking
- Adjustable brightness for main and orientation light
- Built-in motion detectors
- Very good corrosion protection
- Excellent ease of maintenance

Light is our passion, forward-looking lighting solutions our mission. To make the world a little brighter. Inspiring people with intelligent lighting solutions. Solutions that deliver energy efficiency, safety and comfort. That is our mission.

LIGHTING CONCEPTS

As solution designers, we support you personally and assess the situation on site. The best basis for a perfect lighting solution.

PROJECT MANAGEMENT

It all starts with analysis. After solution-specific planning, we manage the implementation of the entire project and coordinate the trades involved.

INNOVATION

As pioneers and lateral thinkers, we keep developing our products and processes and get the most out of existing technology.
